

FROM 3M COMPANY RESEARCH: THE FIRST COMPLETELY AUTOMATIC COPYING MACHINE  
AT A PRICE PRACTICAL FOR JUST ABOUT ANY BUSINESS

New 3M Brand  
Automatic Dry  
Photo-Copier

**3M**  
COMPANY

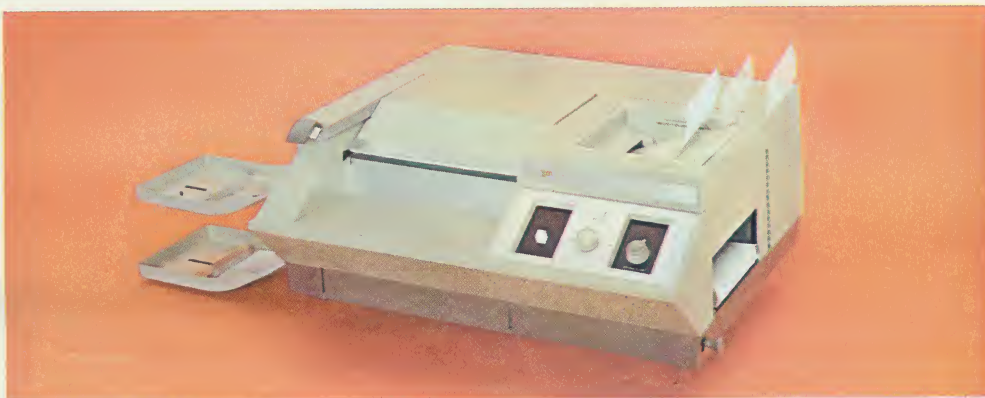

NEVER  
BEFORE  
HAS

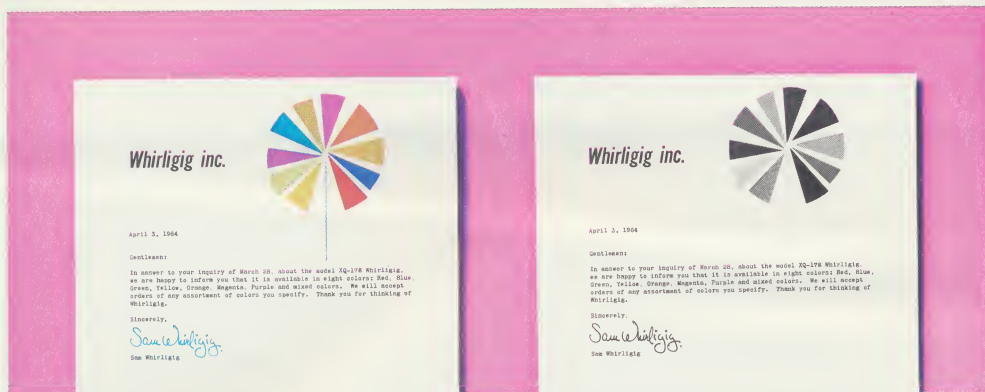

**1**

MACHINE  
COMBINED  
ALL  
THESE  
ADVANTAGES!

**FULLY AUTOMATIC!** Set the dial for exact number of copies needed. Press a button. That's all! New 3M Automatic Dry Photo-Copier feeds paper entirely automatically. Returns original in separate tray.

**SUPERB QUALITY COPIES!** You get sharp, clear, supremely legible copies every time. No dial adjustment necessary. Every color reproduced in black. Even faint blue lines are often easier to read than original.

**COPIES FROM BOUND BOOKS!** Make copies from any original without fear of damage. Just open book or magazine to desired page. All-electric 3M Automatic Dry Photo-Copier produces perfect copies!

**AS LITTLE AS 3½¢ PER COPY!** No other automatic copying machine comes close to matching the 3M Automatic Dry Photo-Copier in low cost per copy—little more than three pennies apiece, with no waste!

# MORE WAYS TO DO BUSINESS BETTER...FROM 3M RESEARCH

3M has spent years studying ways for business to operate more efficiently. Whether it's speeding information to top executives who must make decisions fast — or cutting down overtime in your steno pool, our specialists have the answers. A full line of machines, each designed to do specific jobs better than any other, help you put this knowledge to work in your office. Here are a few —

Famous THERMO-FAX Brand infrared "Secretary"—world's fastest, most versatile copying machine. Produces completely dry, usable copies in just 4 seconds!

3M Systems Products are being used by hundreds of businesses to speed paperwork and reduce costs by eliminating re-writing and re-typing!

New 3M Dry Photo-Copier produces perfect copies from originals of any color—even ballpoint signatures, blueprints, "spirit" copies, books and magazines!

3M Visual Communications Systems multiply impact and interest—make your meetings more effective; cut down time.

New "Filmsort 1000d" Processor-Camera produces already-mounted microfilm record of any document up to 18"x24" in just 54 seconds!

Your 3M and THERMO-FAX Products representative will use his training and experience, plus hundreds of 3M Case Histories, to help you do business better!
